Customer Reviews

For some odd reason the chapter headings have absolutely nothing to do with the content. One is identified as being on uterine problems in women and testicular cancer, of which the content is nowhere close to anything like that. Illustrations would have also been helpful such as placing and using stencils. All in all, generally disappointing.

This book looks like it is a mix of internet texts which were thrown in google translate. It talks about

accidents and Toyota's, hair dryers, women's urinary track, men wearing dark polish, etc ... You clearly see this book is NOT a real book and it has nothing at all to do with airbrushing. This is a money making scam from somebody. What a shame does not filter this out ...:-{

I am not the smartest cookie in the room but even this crumble was too much for me! I have never listened to a full blown psychotic's conversation inside their own head....untill now! Christmas 2015 my contribution for dinner...to read this book from front cover to the end prior to dinner:))))))/
AwesomeJust say no:)

Talk about being ripped off ! They should put these people involved in this scam in jail.The only picture in this book is on the cover and thats it.And theres one paragraph written for each subject in the table of contents.As far as Im concerned the FBI should be checking these guys out.This is not a book ! ITS A SCAM! And Im pissed off.

Has absolutely nothing to do with airbrushing... About every other paragraph has something completely off topic tagged on to the end... Horrible horrible horrible.. The author, editor and publisher should find new jobs.
