Explore Earth's Five Oceans (Explore The Continents)

Synopsis

Oceans cover three-quarters of the planet. This book shows how the world's five oceans - Pacific, Atlantic, Indian, Southern, and Arctic - are interconnected and why they are vitally important to the rest of Earth.

Age Range: 7 - 9 years

Grade Level: 2 - 4

Customer Reviews

Purchased for a homeschool unit and I love that the info is clear and concise without being boring. My daughter has already skimmed through the book and is really excited about using them in school.

Just what I needed for my classroom!

Love Bobbie Kalman books!

Great

Bobbie Kalman's EXPLORE EARTH'S FIVE OCEANS and EXPLORE EARTH'S SEVEN CONTINENTS each pack in 32 pages of detail for grades 2-3, using larger print, eye-catching color photos, and photos of kids around the world to cement geography details. The 'Let's Rock' series answers basic questions about geology and are fine picks for elementary science collections for grades 3-6.
