I NEVER write reviews, so the fact I'm doing this says something big. I would not just use this as my only study source if studying for the PMP.....BUT, listening to these CD's over and over again helps the material sink in very, very well. I listened to them for two straight months on my commute to and from work, while doing the dishes, folding laundry, etc. Basically I memorized the whole thing, and even their corny jokes! Well let me tell you, when it got to test time, I could easily recall something that Leroy and Carl said, and it helped me answer the questions! I highly recommend these CD's to go along with your other PMP study sources. It's well worth the money!

I love it. Not a study alone item, but one of the best audio I have found. It will HELP you study, but you still have to do the homework and read the pmbok etc...Note: It is geared for 4th edition pbok, but a lot of the material applies for the 5th. Lost a star due to cost. a 100 bucks for an older

edition...Common guys!

Great tool to study on the go. I used them in the car, on the train and while walking the dog. Passed the PMP on my 1st attempt, and this set really helped! This isn't a stand alone study tool, its a complementary tool to help you better understand what you read. Great product! Highly recommend it.

As a primarily auditory learner, I found this very helpful. Other learning style PMP hopefuls may not. The gentlemen share a likeable kinship and they are both VERY knowledgeable. I listen to the chapters over and over as I get ready for taking the exam in a month. Can listen on the computer, ripped to iPhone, in the car...a great ancillary tool for PMP Exam preparation.

Great set of CD to listen in the car. They helped me a lot passing my PMP exam

Now I won't miss the travel hours spent during travel going to and from the office of the chance of learning through this audio, this is really a big help, I like the way they naturally do the conversation, not so formal, but very effective way that listener surely learn from it.

On the corny side but reinforced what I'd already studied. Worth the \$ not wasting time sitting in ATL traffic.

These lectures have greatly assisted me in preparing for the PMP. Listening to the CDs is a great supplement to the reading of the PMI and the use of flash cards.
