Very clean and discrete shipping thank you. Came double wrapped (giggity?), all plain looking. If you watched his videos you know what to expect from him in the book (but a lot more information in the book). I love the advance topics you have in here and of course your humor you added into it. More like a magazine packed full of information and great use of pictures and colors through out every page. Goes on about common discussions you find on the internet and a better way to look at it. Read it fully and plan to read it a few more times as it has that much information in there. The author also is very interactive with people, which I appreciate. Yes there are some ads in the book but far less then any magazine you would buy. They are also not thrown in your face and appearing out of no where. The information was broken up clear as day to read and goes deep into a lot of different subjects. I do wish you had gone more into Fulvic Acids and SOG, but was nice to see it in there and still learned some things. Thanks for the book and fast replies.

Nice amount of information. I do wish the format was a bit more durable, as i expect to be flipping through this a lot. But I may just separate the pages, slip into sheaths, and stick in a 3-ring binder with some dividers, anyway. I was wanting a good source of information, and this book came recommended. Glad i have it.

This book is the bomb. He shares so much info and if you follow along with it, it makes total sense. Well worth the money, AND I've used it so much, I need to order another one due to usage, as well as a couple for some friends. AWESOME BOOK AND INFO, Totally impressed.

Great read hard hitting no joke Good stuff

Good book... fast delivery.. full of great info ..a medical patient must have ..

Very impressed with book over all. The depth that he goes and style in which he explains his ideas is outstanding!

Excellent place to start read it don't just look at the photos lots of great information to be had.

Great, thank you....
