Haunting Charlie: Witches Of Palmetto Point Book 1

Synopsis

Ignoring the dead can get you killed...All Charlie Payne wants is to lead a normal life and to be a good mom. But Charlie's not exactly normal. She's from a long line of witches and she can see the dead. Susan Tate has inherited a beautiful old southern mansion on the coast. Unfortunately, the property came with a million necessary repairs. And ghosts. When Charlie meets Susan, the woman is desperate for help. Taking on a spirit who doesn't want to see the light can be dangerous but ignoring it? Ignoring the dead can get you killed. Haunting Charlie is the first in a spine-tingling new Supernatural Suspense that will have you clinging to the edge of your seat. If you like Darcy Coates, Shani Struthers or JL Bryan, then you will love the Witches of Palmetto Point Series by Wendy Wang! Download your copy today and get comfy because once you start reading you won't be able to put it down. Author Interview: Why such a fascination with the dead and ghost stories? I grew up listening to ghost stories from my family. My granny's property was next door to an old churchyard and you could see the headstones through the trees separating the two properties. She'd tell us about haints (spirits) that would wander over and mess with the knick-knacks she had. She also used to tell a story about my how my grandfather's ghost would lay down on the bed next to her sometimes. Said the old iron bed would squeak. I still get chills when I think about it. You started out writing fantasy, why the switch to suspense? Funny you mention that. I actually started out writing scary stories. I wasn't sure people would want to read them, so I wrote my second love, fantasy. About a year ago a friend of mine asked me whatever happened to those ghost stories you used to write. She told me I should start publishing them too, and so here we are. Why stories featuring a psychic who can see the dead? Well, like most of my characters, she just popped into my head one day and wouldn't shut up. I thought it would be interesting to write about her life and about the South Carolina coast. I lived there for fourteen years and know the landscape really well. I also have family that's a lot like hers. All up in your business but that loves you fiercely. Who would enjoy this novel? Anyone who loves a good scare, a little humor and a crazy southern family full of witches. Read Haunting Charlie for FREE with your Kindle Unlimited subscription.

Customer Reviews

I really enjoyed this book. I couldn't wait to get out of work so I could pick up my kindle and continue reading "Haunting Charlie". I read book two and pre ordered the next. Can't wait till September (release date)

There are some places where the description of what is happening is a little to graphic for me, but I really loved this book and can't wait for her next book with the Witches of Palmetto Point. A great read!

I enjoyed this story. It was a quick read with a fairly predictable plot, but the characters were relatable and the dialogue realistic. I did notice several editing errors that distracted me (incorrect tense, word choice, and repeated words). It's not the next great novel, but it's a solid choice for a lazy afternoon read.

I really do not like stalker and ghosts books, but this one was good and the characters were very believable. I like this family and hopefully there will be more to come. Recommended!

First book I've read by Wendy Wang, other than some editing glitches, it's a smooth and easy

dialect. I enjoyed the plot and the characters, She was true to the genre, Going to buy the second book in this series. Hope it's as good, if not better than, the first

I don't usually read contemporary fiction. I love the classics but this is a must read. I couldn't put it down. Two thumbs way up

Fun light read. Interesting characters. Worth a look

There are a few editing issues throughout the story, but they dont detract from the characters and their story. Keep up the good work.
