The Ultimate Book Of Lighthouses

Synopsis

The sheer beauty of the elegant, lonely lighthouses along our shores — and their unspoiled, scenic natural settings — has captivated our collective imagination. More than simply picturesque, the lighthouse has become an enduring symbol of salvation, fortitude, and heroic folklore. The Ultimate Lighthouse Book is a panoramic, lavishly illustrated history of these legendary buildings and celebrates the rich heritage of our ancestors's courageous efforts to guide mariners through treacherous seas and storms. Over 200 color photographs are featured in this fully revised, expanded and updated edition.

Very interesting.

Love it

Loved it. The book is filled with gorgeous photographs and interesting facts. It was hard to put it down. I liked how they separated the chapters by the different classes of lights (beach lights, island lights, harbor lights, etc..) Recommended for any lighthouse fan.

Actually it's a beautiful book and I was pleased to pay \$15.00 for it until it arrived with a .99 cent Goodwill sticker on it. Now every time I look at it that's all I see.

This is an excellent book on lighthouses. It is detailed, with great history of the lighthouses, and the photography is excellent. The price is great for the hardcover, large book this is. I would recommend it to anyone wanting to seek information on lighthouses, or just a lover of them.

I gave this as a gift but skimmed through it first. It is nicely written and great pictures.

Great book highlighting in detail our wonderful lighthouses in America.

Perfect book for a lighthouse collector/lover. Although it said it was used, it is in excellent condition.
