Customer Reviews

Kevin Trudeau is fast becoming the nation's foremost consumer advocate and exposé of corporate and government corruption. Claiming to be a secret covert operative for almost twenty years, Kevin knows from personal experience how big business and government try to debunk individuals who promote products that could hurt the profits of giant multinational corporations. Trudeau spends most of his time spearheading www.naturalcures.com, the website that promotes education about natural healing therapies; and www.thewhistleblower.com, the website that exposes corporate and government abuse and corruption. He is actively pursuing lawsuits against the individuals, corporations and government agencies that take advantage of the average consumer. He is also dedicated to the formation of various foundations to pursue these goals, and intends to donate much of his fortune for that purpose. --This text refers to an out of print or unavailable edition of this title.

If only I read this sooner!!!! So much helpful information, this is a must read for dealing with creditors, credit agencies, the entire ruthless financial industry throughout your life. You need this book as a reference for many situation that will arise in your lifetime. You will be prepared to

respond the right way with this book.

" This is truly a great book that everyone should read. It is full of truths that " THEY " don't want us to know about, but Mr. Trudeau is taking great risk in revealing these truths to us . Bless him for his truthfulness !Great book, and it arrived in good shape, and the seller didn't lose any time in shipping it."

This book is another farce. I don't honestly know why I fall for his advertisements and purchase his books. He never gets to the point. It was a waste of money and my time to read to read.

Good practical advice, some commonly known, but overall a good read. Easy to follow.

Ordered the books on amazon. Almost ordered the books by his 800 number. Including the so called free books, the order would have been \$59.00, Why offer a free book(s) if you going to charge the person \$12.00 to \$25.00 processing fee???? From cover to cover , there was about 2 pages of usefull information. What a rip off .

doesnt really have any usefull information that people dont already know about... or should know about anyways.as a work of "ra ra fiction" it scores up there with the rest of the quickfix and get rich books that are as useless.the only information in this pile of crap that is worth anything is the explanation of gov. finances and how they work (or more accurately dont work).

Yes It pertains the same Ole same ,but also a great narrative on how to deal with bill collectors.

buy this used... its stuff we already know! but if you buy it for less than \$1.00 your doing good
