The Next Whole Earth Catalog: Access To Tools

Synopsis

We are as gods and we might as well get used to it. So far remotely done power and glory - as via government, big business, formal education, church - has succeeded to the point where gross defects obscure actual gains. In response to this dilemma and to these gains a realm of intimate, personal power is developing - the power of individuals to conduct their own education, find their own inspiration, shape their own environment, and share the adventure with whoever is interested. Tools that aid this process are sought and promoted by The Next Whole Earth Catalog.

Glad I finally bought one of these pieces of history. Great graphic design inspiration.

Just as I remembered it. I wanted it for my daughter who is an organic gardener with the dream of

homesteading. She grew up reading the Whole Earth Catalog. Thanks for bringing back wonderful memories.

What can you say about The Whole Earth Catalog other than it's one of the best books to browse through on the planet. The ultimate coffee table book, and a great reference if you're headed back to the woods.

I wish there a current version.

Wish there was a sixth star to click on!

I purchased the book because I had the first version back in the 60s. The present book shows its age, i.e. the edges of the pages are yellowed and the binding is weak. But I expected that due to its age - printed in 1971. Turning the pages and reading the articles certainly bring back the memories. The delivery was prompt and the books condition was as stated. High Pockets

I remember seeing a version ten years earlier, when I was about 12, and wondering "what is this?" and then I remember seeing this version, ten years later, when I was about 22, and going "OH MY GOD! OH MY GOD! OH MY GOD!" with the realization that this book was like a set of car keys to reality -- empowering unlike any other book. Anything you wanted to do, to become, this book had information on how to do it, how to go about MAKING IT REAL. Highest possible recommendation!!!

This was the only book for many people. You did not need to be an aging hippie to own it. It will always be what many catalog companies wish they could be. I don't care how old you were my children relished it as much as my husband and I did. Stewart Brand wrote the ultimate book. Mother Earth news eat your heart out, you'll never match The Whole Earth Catalog. Thank you, Stewart
