When Angels Seek Chaos (The DePalma Family Book 1)

Synopsis

Angelo Moretti was a man I should have stayed far away from. When my world was torn apart before my eyes, and I was left vulnerable and damaged, he was sent to protect me. He was hard. He was patronizing. And he was the most beautiful man I'd ever met. Every bone in my body told me to hate him, to despise everything he stood for. But I couldn't. Angelo lit a fire inside me I'd spent my entire life smothering with obedience and fear. He pushed me further than I'd ever been before, and when I was right on the edge, he dared me to jump. He offered me redemption and the chance to hurt those who'd wronged me. In order to get that though, I had to take a leap into his world, the deadly mafia empire the DePalma family had created, one filled with drugs, guns, and blood. I found him in the darkness, but it was there that I may just lose myself. Trigger Warning: there is content within this book that may set off triggers.

Customer Reviews

This was a fantastic read. Addison Jane outdone herself. The club Girls diaries are still my favorite. this next phase will be awesome. There are some scenes and reading in here that might trigger some people who have been abused in the past. I haven't but my mother had by my dad. So this book can help some people relate to the need for payback. I wondered if I'd ever pushed

him too far, and the thought that he was angry with me drove me crazy, and I tossed and turned the whole night, wondering whether I ruined everything.

I just finished this one, and Oh My Gosh!! Wow! It had me from the first page. I loved it. I have all of Addison's Brothers by Blood books and I was excited when I heard she was making the DePalmas. I really recommend this read, love the mafia stuff in here. Reminds me a lot of the biker books.

I loved the story. I had to drop the rating to a three due to the ending. So I guess it will lead into a second book? Was really thrown off by this. I have read a lot of her books but never with an ending like this.

Damn i didnt see this one coming!!!This book contains Love, lies, betrayal and alot of bloodshed.And oh my that epilogue, i cant wait for the next book.

It's a look inside the DePalma family that have heard about in the club girl diaries. It sexy, intense,passionate. You won't want to put it down

Anyone who knows me KNOWS that mafia stories are my jam! And dark mafia stories? Good Lord sign me up!! I absolutely FLOVED this book!! And hello - where has this author been? How have I never heard of her? She legit rocked my world with this book! (Thank you once again GMB!) I loved Angelo and Emerson so so hard. Their passion was intense and their chemistry combustible. Angelo was so protective, strong and so dedicated to Emerson and his family that I could not get enough of him and this book. I absolutely loved it and OMG ...the last few chapters.. HOLY PLOT TWIST, Batman. My mind was Blown!!! Gahh what an incredible story. I need MORE now!!Emerson Rossi has always lived a loving but sheltered life. But after a horrific crime against her family and the death of a cherished loved one, her world is brought crashing down and everything she once knew was all a lie. She finds out she is the niece of the DePalma Mafia Don, Anthony DePalma and now needs protection. Enter Angelo Moretti. He has always had a soft spot for Emerson despite her close familial ties with his boss (and unofficial father figure.) But what happens when lines get crossed and the enemy is closer than they knew? Will Emerson and Angelo be able to fight their way out?I absolutely loved this book. I loved that it was about La Cosa Nostra and very family oriented but I just fell in love with Angelo for systematically doing anything he could think to bring Emerson back to the land of the living after her traumatic ordeal. More so, he wanted her pain and

sadness to be transformed into bloodlust, a need for revenge and the catalyst she needed to finally be strong enough to stand up for herself, her wants and desires. I was absolutely enthralled with this book. I love that Angelo brought out Emerson's sassy and defiant side. He pushed internal buttons in her she didn't know she had and brought out that inner tigress in her and the need to challenge him. Likewise, she was the only woman that could bring him to his knees. She became his exception and a pillar of strength for him when the man beyond the hardened Mafia Capo exterior needed support. GAHHH I love this book!! They were perfect for each other and that TWIST!!? OMG. #mindblown. I can't wait for more from this author in this series! 5 Amazing Stars! ~Ratula

When I decided to read *When Angels Seek Chaos*, it was because of the author. I really enjoyed her *The Club Girl Diaries* series. So, I figured that if she can write a good badass biker, imagine how good her alpha mafia capo might be. Good is an understatement as shown by my five star rating. It has only whetted my appetite for more Depalma Family series, especially after the epilogue that gave me a glimpse of what I have to look forward to. When I read the synopsis, I had no clue what to expect as far as her world being torn apart before her eyes. But now that I've read it, I can say that's an understatement. I may have only been reading words on a page, but I felt her pain. I understood her rage. I became her cheering squad. I was ready to load some shovels in the trunk and offer my services. When I met Angelo, it was the younger version of himself. I also felt his pain. It was easy to understand how he ended up where he did. "He wasn't a bad boy. He was the bad boy. He was a respected member of the Depalma Family and people both loved and hated him depending on which side they were standing on. The family took care of their own, but don't cross the line. "I dare you." I might be a boring law abiding citizen, but while reading this amazing book I confess I became blood thirsty and ready for some revenge. I'm also guilty of some mental matchmaking. And yes, I did some mental undressing too. There's just so many layers when a sexy man is wearing an expensive suite, and Angelo wore the hell out of his expensive suits. Sometimes he did sexy things without even taking off the expensive suit. And did I mention that he was a bossy boss in and out of the bedroom? And then there's his Italian accent when he calls her Bella...sigh. Yeah, Angelo is all that. But while he may be irresistible in all those areas, can she handle all the other sides of him? He reminds her that, "Just because a bad man does good things, doesn't make him a good man, Bella." He made sure that she saw his dark side. Would her desire for retribution be strong enough that she would go there too? What? Just because I tell you all the sexy stuff doesn't mean I'm gonna spoil the story for you. Nope, you need to dive into this adrenaline rush that will blow your mind when you least expect it. You need to wait and wonder and worry just like I did. That's part of the

experience and you don't want to miss a minute of it. I can't wait for the next installment. The line forms here...1 like
