Sorting (Math Counts)

Synopsis

Children can become mathematical problem solvers, learning to communicate and reason mathematically, by using the Math Counts series.

Book Information

Lexile Measure: 120L (What's this?)

Series: Math Counts

Paperback: 32 pages

Publisher: Childrens Pr; Reprint edition (September 1995)

Language: English

ISBN-10: 0516454587

ISBN-13: 978-0516454580

Product Dimensions: 0.2 x 8.5 x 8.8 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars 11 customer reviews

Best Sellers Rank: #47,557 in Books (See Top 100 in Books) #20 in [Books > Science & Math > Mathematics > Pure Mathematics > Logic](#) #247 in [Books > Children's Books > Education & Reference > Math](#)

Age Range: 5 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

Awesome for learning counting an sorting

My class loves this book.

Wonderful math book by Henry Pluckrose! I have searched for years to find relatable , understandable and colorful math books for my Kindergarten and preschool students. I have in Henry Pluckrose's series for young children! Thank you to Mr. Pluckrose for writing/illustrating these and to for carrying them at affordable prices!

This book is good for kindergarten for introducing the concept of sorting. It is not a very in depth book, but I do plan to use it for introducing the topic in math.

This has some good sorting ideas. The pictures are colorful. It's pretty simple and good for little one.

The Math Counts series is wonderful. Beautiful photos and a wonderful addition to my classroom library.

This book is a small teaching book about sorting in different ways. A child reading it by his/herself would need some direction as they are reading. Good for homeschool moms teaching their kids about sorting and for teachers in the classroom. It is a short book but covers sorting with colorful pictures.

A good introduction to classification. Great for science as well as math.
