Awesome, Awesome, Awesome! If you really want to sit and learn the stylings of Duff McKagan, this book is great for it. While he does tend to play his bass as though he's playing guitar (which is certainly not terrible), he does have a unique style and sound that I have always enjoyed. His work on this album was a lot different than the UYI albums, as the bass lines there were minimalized quite a bit compared to Appetite (they're still great albums). Be patient and don't expect to have every song down pat within a day or two. Take your time, song by song, and practice, practice, practice. Before you know it, you'll be jamming right along.

Accurate and perfect size text/tab. Not too small and not so large you have to turn the page every 4 bars.

Great tab book, accurate and a cool intro about the songs and stuff...cool side note I actually live a few blocks from where they recorded this. Looks a lil different now..

Wrote very well wrote.

Very Nice Songbook. all songs were transcribed in detail. perhaps the only thing I would ask for is more tips of the sounds of guitars and pedals used in the album. Finally, I do recomend that songbook for everyone.

Good book. Was having fun learning my fav gnr songs. Gonna have to put on hold for a little bit as I am busy with work and getting house ready for sale and moving. Cant wait to learn them all.

Great item. Fast shipping. Thanks

Classic album transcribed by one of the best. Great product.
