## Customer Reviews

excellent guide, but don't expect colored pictures, very few pics. That would just make the book bigger to carry around LOL, so do your research for pictures on Google images and you'll be fine. Rick Steves recommends this book for Sicily since he hasn't written one, so that's why we got it, was very helpful.

lots of info, easy to read hope to go this fall and have my niece show me around, but this gives me a heads up on what to do, where to go, to eat and what to see.. and it will go with...

It has a lot of information but since we haven't left for Sicily yet, I cannot really give an informed review

A great aid during my travels on the island.

It was a gift and my friend really liked it.

It's ok, but I was expecting more detail, especially with accommodations and eating. I plan to cycle

and there was no info about that. More of a rental car tourists guide.

LOVE it! Great info to get ready for my trip to Italy.

Very useful in Sicily.
