## Synopsis

Dive into this sexy five-book series that follows five security professionals in their quest for both justice and unexpected romance. With over 250,000 words, the sexy and mysterious men of Ford Security are bound to keep you up well into the night.

**RANSOM** Summer Smart is on the verge of losing the only person she has left in her life, her older sister Taylor. After watching helplessly as strangers drag her sister away, she is forced to entrust the help of Chase Carter and blindly follows him as he quickly takes charge of the situation. Chase is a seasoned pro who always made it his mission to make sure he avoids mixing business with pleasure but there is something about the beautiful and vulnerable Summer that he can't quite ignore. Summer has always been content to be on her own but when she finds herself needing Chase more than ever before, she quickly begins to learn that all is not fair in love and war.

**REUNION** The last place Ella Gold wants to return to is high school, especially because she has been receiving threatening letters in the mail recently and all signs point to the sender being someone from her past. As the letters become increasingly ominous, she enlists the help of Ford Security agent, Luke King. Luke King can be a bit of a jokester but when it comes to work, he is all business. So, when he shows up to Ella's house, he is ready to get to the bottom of things. Unfortunately for Luke, this case isn't as clear-cut as he used to and the more he learns about Ella, the more he learns that somebody might be lying to him.

**TRAINING DAY** Zane Richards has just returned from the Caribbean after a lengthy stay, where he and his brother had escaped after a case went wrong. Now he is back and ready to get back into the swing of things but an ordinary day turns into anything but when he decides to let the Ford Security office assistant tag along with him for the day.

**Anna Lewis** is mostly content with her job manning the front desk and briefing clients, but sometimes she finds herself yearning for a little bit of an adventure. When boredom gets the best of her, she talks Zane into allowing her to spend the day with him in the field. But this ordinary day quickly takes a dangerous turn and she finds herself on the run from some very dangerous people.

**SINS OF THE FATHER** Lola Grimm is a dead woman walking, or at least that is what she wants the world to believe. Both her and her father, Seth Grimm are supposed to be dead, but they have been hiding out in the Hollywood Hills waiting for the perfect opportunity to emerge back into the world with the intention of reinstalling Seth to the throne of the underworld empire he built from the ground.

**OUT OF THE SHADOWS** Dominic Ford thought he had lost everything in this world. For the past ten years, he has been torn between an internal battle raging within his soul, pulling him between the axis of both good and evil, and it was all in an effort to save his sister who was taken

away from him by the corrupt and powerful Seth Grimm. Katie Strong has more in common with Dominic than he could ever know. Eight years ago, her brother was taken away from her by the same man that took Dominic's sister and when all hope seems to be lost, she discovers there's one person in the world who might know the whereabouts of not only her brother but Dominic's sister as well.

## Customer Reviews

It is light reading, but very predictable

An ok read. Could use some more editing, there are grammatical errors, spelling errors, and other errors (ex. Book 2: her hair goes from auburn curls to sleek, long black hair; goes from living in a house to an apt on 37th floor). Lots of suspense. This series, Ford Security, are the stories of Dominic, the owner and his team: Chase, Luke, Zane and Zach (Zane & Zach are twins). Each member has their own story and seem to work by their selves. Marcus is their computer guru and appears in each story, but does not have a story. BOOK 1: When Summer's & her sister Taylor are attacked at the mall, Chase, who works for Ford Security, steps in to help, but Taylor is kidnapped.

They work together to find Taylor and bring her back safely. Although they are strangers, Summer feels safe with Chase and the longer they are together, they start to realize they have feelings for each other. The more Chase helps the worse it gets as it's his enemy behind it. BOOK 2: Ella is receiving anonymous letters and feels like she is being followed so she contacts Luke who works for Ford Security for help. Luke is receiving anonymous texts and wonders if the 2 are connected. They will work together to find out. Although neither are very trusting of others, they instantly trust each other and are attracted to each other. BOOK 3: Anna & Zane both work at Ford Security. Anna talks Zane into letting her tag along with him for the day and they both get kidnapped as the past catches up with Zane. They have been attracted to each other for a long time and get much closer as they try to escape. BOOK 4: Lola is a past client & Zach works at Ford Security. Lola is looking for help to kill her father, a mob boss, and his associates; she talks Zach into helping her. Zach agrees because he can't forget almost dieing at the hand of her father. They have been attracted to each other since they met, can he help Lola get out from under her father's power? BOOK 5: Katie steals and sells secrets to the highest bidder & Dominic owns Ford Security & has a lot of secrets that are coming out; they come together to find their kidnapped siblings. Can they and the rest of the team handle the secrets uncovered along the way or will they tear them and the business apart?

Very one dimensional writing. It's a collection of 5 books, but truly is the same storyline in each one. All of the characters are so similar as to be interchangeable. Editing is deplorable. I can't believe I read the whole series. I am ashamed of myself for doing so.

What a unique story about five members of the Ford Security Team. Each story depicts the life and relationships of a specific member and how his story unfolds. Each story connects not only with the Security Team but also with any characters necessary to develop any ongoing story. Lots of action and thrills with many twists and turns. Unforeseen surprises causing many changes in direction making these truly interesting and addictive.

This first story of Chase was enjoyable. However, I was frequently distracted by grammar mistakes and typos that were in great need of editing. Examples:

“We’ve just about went over everything I can think

of.” “It’ll be

because I brought her back to the factory,

“We’ve done

“We’ve done

crossed that threshold. The story revolves around a high stakes security agency and yet the lack of caution is amazing. Chase and his lady friend flee the scene of a car explosion because they don't want to be seen by the police, yet they leave the company SUV behind at the scene. Did they forget that the SUV would easily be traced by the company, Ford Security? They have a taxi pick them up in front of parking garage where the explosion took place and then drop them off in the parking lot of their top secret "safe house" for Ford Security. It would not be too difficult to connect the dots and find them. In the second story about Luke and Ella editing improves. When we get to the next two stories, they revolve around "the twins" that have barely been mentioned in the first two books. For a team of friends who feel like brothers, each character seems to work totally alone without any support from his "team or brothers". I really did not care about characters three and four, "the twins", so I skipped those chapters and decided to read Dom's story. I found he had little backbone and little moral character, so I quit reading. The inconsistency in the stories is troublesome. Chase states that he and Luke are best friends and hang out together. Yet in Chase's story, Luke provides little to no support. In Luke's story he and Dominic (Dom) are best friends. Yet, he refusing to confront issues about Dom that are troublesome and does not share them with any of his team mates. It takes quite a bit away from Luke's moral and hero status, and makes the perception of his character in this reader's eyes as more of cowardice and lack of moral fiber. Chase also refused to confront Dom about what he knew and did not share the information with Luke and the others. In reality, Ford Security, would be the last company I would hire if I actually was in need of a security company. They appear a bit incompetent. I think this author shows promise, but the stories need more work before they can be truly enjoyable.

Thank god this was a 5-book book or else it had been necessary for me to buy all the books at one. Loved it from the start to the end. I could not put it down once I started reading it. So so good I just wanted to keep on reading. Well done. Off course there is some characters you love more than others, but I think they complement each other well.

One of the perks of having KU is the ability to read new authors without risk. I've only had the service for a week and I'm already pleased so far. I loved the first book, didn't like the second as much but I still liked it. But books three and four were my favorite with Zach and Zane. I think I have

a sweet spot for twins anyways lol.I'd read more from this author .

I agree with the first two reviewers! Author desperately needs a proof-reader. Example: I lied face down but not sleeping. Another: I stood slat against the outside wall.Inspite all these, I intend to finish reading, as long as I can interpret her intended meaning."sigh"
