Customer Reviews

I was very pleased with this book! I ordered this one for my son who has had a couple years of lessons, and book 2 for my other son who is more advanced. I wanted a book that would develop their chord playing and hymn playing skills, and these books are perfect. The arrangements are beautiful yet simple enough for the early piano students.

Great book for beginners. I enjoy playing the spiritual songs in this book. I am learning how to play the piano, at my Senior Center and the songs in the book is great, however I practice more with this book because the lessons I learn in class can be applied to the songs in this book. I would recommend this book to all beginners. You will enjoy the music as you play and experience progress as well.

I'm not an accomplished piano player like my mom but I love to plink out a tune or two. I love this book because it gives instructions on how to play chords so I can now play several of my favorite

hymns in the simple arrangements in this book. There are many hymns I can't play yet but I know if I keep at it, I'll be able to master more.

This is a great book for anyone who learned piano a long time ago and has decided to try to play again. It begins very simply and adds skills gradually. Best of all, the arrangements sound like the hymns, not as though you're only playing the melody line from a hymnal. Although the book is coordinated with a lesson book, I've been able to work my way through this book without purchasing the lesson book. This book has provided a gentle way to reacquaint myself with the piano and it is a pleasure to play from it!

I bought this book as a level one adult piano student who wants to play sacred music (hymns). This book does not disappoint. It was structured to the Alfreds Basic Adult Piano Course Level One and follows that book exactly. Each song tells you where you need to be in the Basic Course Book in order to play the song. With this knowledge you can even try to challenge your ability by going a little further in the book than you are in the course, and then seeing where you stack up in your lesson. The music in the book is very satisfying to play. The arrangements are simple but beautiful. Right away after only a few piano lessons you can play some of your favorite hymns. The songs are easy but not too easy and they sound very professional when you play them. Highly recommended!

Alfred's Basic Adult Sacred Piano Book: Level 1 is an excellent book for adult beginning piano students who love the old favorite hymns. The arrangements are easy for beginner but do not sound childish. The arrangements are simplistic yet beautiful.

Sorry to say I have not used any of the contents in this book as of yet. I am a beginner and am not ready to play any of the songs yet. I am sure I will enjoy this book after I looked through the contents. After looking through the book, I would recommend this book to anyone interested in playing adult sacred music.

Just received this and makes for another great beginners piano book.
