Customer Reviews

Alison McNicol is an expert in teaching children to sew and has written the Learn To Sew: Kids series of best-selling sewing books for children.

Excellent and well laid out! Teaches basics and moves upward, highly recommend. I'd even use this to teach an adult who feels overwhelmed!

I learned how to sew at 12 yo and have been an avid sewer ever since. I wanted to teach my 9 yo granddaughter to sew but I wanted to do it right. This is a great step by step book for beginners and she can read ahead when I am not there. Great purchase for the money.

I was looking for a book to start my two daughters (9 and 10) off with a new sewing machine. This

was exactly as advertised. It went over the parts of the machine, which we could then match to the machine and see what each part did. It had pages about getting ready to sew, how to sit at the machine, how to hold your hands when sewing. Pretty much everything I had been looking for in a format that was easy to read and understand.

Very good book for beginners. Like the pattern pages to practice stitching directions!

Very informative book.

good instructions for beginner

Good book for beginning sewers. Has lots of pictures for explaining how to do the things related to sewing.

Great book for my nine year old grand-daughter to get acquainted with the sewing machine. She is reading it and loving it. She has been sewing on the machine off and on for about 3 months. I believe the book will help her. When we started she had the attention span of a gnat but is getting better. This book and its illustrations will help her along in her sewing journey. Thanks
