Customer Reviews

The book has various photos of gowns dating back in history and until now, some photos are more wedding snapshots. It has a little bit of history behind the wedding dress and what i found the most exciting was that on every second page was quotations about celebrating love and marriage. I found the quotations more interesting than the photos themselves.

I rate the book as being very good, but it could be better. It had nice style, but not quite what I was looking for.
