# Cultural Psychology (Third Edition)

## Synopsis

The standard for cultural psychology courses around the world. The most contemporary and relevant introduction to the field, *Cultural Psychology*, Third Edition, is unmatched in both its presentation of current, global experimental research and its demonstration of how cultural psychology is relevant to students' lives, their society, and the world around them.

## Customer Reviews

Steven J. Heine is Distinguished University Scholar and Professor of Social and Cultural Psychology at the University of British Columbia and author of *Cultural Psychology*, the top-selling textbook in the field. In 2016, he was elected as a Fellow of the Royal Society of Canada.

This textbook is easy to digest and defines key terms. I give it 2 out of 5 stars because it's incredibly poorly written. I was surprised a person can write a book of such poor, verbose, conversational quality and actually get published. The writing is clunky, which makes understanding the concepts within a real challenge. I had to purchase this for a class, but thank God it was a rental so I don't have to pay the full price or know that this is in my house.

Great text. I think the author tries to do a good job integrating his own personal experiences, as well as other's anecdotes, which makes for great application. However, he cross-references too frequently and it becomes confusing. Other than that, I actually appreciate the book. I had to learn

this course on my own and I did well because the text was comprehensible.

Much longer than it needs to be, but Heine definitely fleshes out his ideas well. I disagree with some of his conclusions, but this is to be expected of any textbook (and is kind of the point of academia). My copy (a rental) was clearly worn and covered in some markings, but it was fully legible and not falling apart. Definitely worth the price.

What an interesting textbook. I actually enjoyed reading this for class

Very informative textbook for a branch of psychology that I was unaware existed.

Ordered for school, not really used

Just what I needed for school

Excellent book
