## Customer Reviews

I have this book for a class, excited that I don't have to carry another textbook, just disappointed that does not work with the Kindle Cloud Reader on my Acer ChromeBook, but at least still have it on my Kindle Fire

This book you need it for your career. Or any career because it talks about customer service every should have customer service if you live in a capitalism country, you want to make business go ahead.

Very little highlighting/writing in book.

Book came in good condition.

Useful book.

It was in good shape when I received it and it has been fine to use for class.

The book is in some what good condition, the pages are starting to fall out and I am only on chapter 1

Other than the highlights throughout the book, it was in good condition.
