Eye Of The Storm: NASA, Drones, And The Race To Crack The Hurricane Code (Scientists In The Field Series)

Synopsis

Ten million Americans live in hurricane danger zones, but how do we know if or when to evacuate? We must predict both when a storm will strike and how strong it will be. A daring NASA earth science mission may have finally found a way to crack this hurricane code. Dr. Scott Braun is the principal investigator for the Hurricane and Severe Storm Sentinel mission (HS3), which flies repurposed military drone over hurricanes so that scientists can gather data. But the stakes are high and time is running out. In the first *Scientists in the Field* book entirely about weather, meet the NASA team on the cutting edge of meteorological field science. □ □ □

Book Information

Series: *Scientists in the Field Series*

Hardcover: 80 pages

Publisher: HMH Books for Young Readers (April 25, 2017)

Language: English

ISBN-10: 054441165X

ISBN-13: 978-0544411654

Product Dimensions: 11 x 0.5 x 9 inches

Shipping Weight: 1.3 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #521,296 in Books (See Top 100 in Books) #180 in □ Books > Science & Math > Earth Sciences > Atmospheric Sciences #210 in □ Books > Children's Books > Education & Reference > Science Studies > Astronomy & Space > Aeronautics & Space #427 in □ Books > Children's Books > Education & Reference > Science Studies > Nature > Weather

Age Range: 10 - 14 years

Grade Level: 5 - 7

Customer Reviews

"Well researched and engagingly written, this is an occasionally fascinating entry on hurricane prediction for middle schoolers. Robust science collections should consider." □ SLJ "...the team's mission unfolds in such a gripping fashion that readers will be hooked. This book will be particularly eye-opening to those with an interest in severe weather." □ Booklist "Cherrix provides clear and informative background on storm formation . . ." □ Horn Book

Amy Cherrix holds a Master's degree in children's literature from Simmons

College and works as a children's book buyer at a fiercely independent bookstore. She is the author of Scientists in the Field title *A Eye of the Storm: NASA, Drones, and the Race to Crack the Hurricane Code*. Visit her at amycherrix.com.

This totally engaging middle grade non-fiction book brings the world of hurricanes to life with dynamic prose and super-cool photography. Ms. Cherrix explains hurricanes from the personal, historical, political, and scientific perspective. Kids or anybody will learn a lot from this fantastic resource!

A totally fascinating and meticulously researched account of a NASA mission studying hurricanes. Beautiful photos, beautifully written. Cherrix's passion for the subject are evident on every page.

So well researched, well written and important! An important addition to a classroom science collection or purchase for a science-loving kid!
