A Lady Most Dangerous (Helen Foster Book 2)

Synopsis

Helen Foster was saved from a watery grave by her BFF from the future and knows she's lucky to be alive. Sadly, she's not so lucky in love. Her blackmailed benefactor, Edward Clifton, the Duke of Somervale, thinks she's dead. And Helen has to make sure it stays that way. But as Helen and her best friend Mary get charged with a new mission—save the Prince of Wales from assassination—avoiding Edward will be the least of her problems. Edward Clifton has nightmares about Helen's death. Beautiful, infuriating, deadly and with a vocabulary that would make a sailor blush, she was unlike any woman he'd ever known. And he failed her. Now he'll go back to being the rule-abiding, proper (and admittedly rather boring) Duke he was born to be. But when Edward discovers that Helen might be alive and involved in a deadly quest, he must decide if he will let her go or risk everything to be with a lady most dangerous. This is the second and final book in Helen's and Edward's story. This book includes sex, swearing and historical liberties taken.

Customer Reviews

I really enjoyed the second book of A Lady out of Time with the back-to-the-past time travel series. Helen was left for dead after the past events while she was actually rescued by her friend Mary and is now off to a new mission, rescuing the Prince of Wales and trying to do so while avoiding While Edward is tormented by Helen's death and going back to his mundane life. There were few inconsistencies though, mainly being: (SPOILER ALERT) - The serum to fix the bleeding due to time travel. How can it exist when there's no communication possible between the past and the present? Even if 10 persons of the German side managed to time travel and among them scientists, science and technology wouldn't be advanced enough in those times to allow any creation of a serum that would counter the effects of time travelling. And we know that they couldn't have brought with them any equipment - Jonathon Turner, the Lieutenant sent from their side. Well, it seems that none of the girls knew him before so why the hell would they trust him? It doesn't make sense to send someone they didn't know when being in such a perilous mission - At the end, when Edward chooses Helen over his fiancée. Ok I saw that coming obviously but even if he follows the list of things he was supposed to do in his life, the fact that he didn't marry Lady Katherine means that we wouldn't have access to her vast fortune so how would he spend that money in research and development..... - All the political struggle with the Nazi somehow went down the gutter, to me this is unfinished business. But otherwise, excellent read, I like Ms. Hanson's writing style, it's witty and funny. Now I'll be waiting for Bewitching the Werewolf novella 2 (this one is truly excellent, check it out!)!!!

Really cool book. I do wish it had all been one book as I feel cheated in time spent to go find and purchase the other bit while so engrossed in the story. Loved the concept too, but as usual this time travel idea boggles my mind as to how it would really work since time does not happen continuously to be revisited and changed. Edward is hot and I loved the fact that Helen is such a badass misplaced in that time frame when women were rather helpless (or at least thought to be).

Not Hanson's best work, but not too bad. I found the MC a bit hard to like. Hanson overuses profanity in these short stories. And while a writer can certainly flavor a character's dialog, a little goes a long way. I like the unique idea of this story the most. This would have been better developed as a full length story, rather than a series of short story installments, with more time and attention to character development and plot.

I really enjoyed this book along with Helen Foster's part 1. You can check off all the important parts of this adventure ,time travel , mystery , much humor , love , lust,friendship , and its all involved with saving the world from it's current fate where the Germans win WWII, and the world is a mess. Helen is a soldier who, due to her slightly altered physical state , is assigned the job of changing the time line by stealing plans for early weaponry to reverse their advantage . All previous soldiers died attempting to travel in time , but Helen has an advantage -her body heals itself and in spite of having to learn how to exist in Victorian England which includes pouring tea (ha!) She soldiers on. This is an interesting , very funny ,very serious , full of adventure and patriotism and Love!! I seriously recommend the books. Haven't checked yet but I am hoping there is a part 3 to the Helen Foster books. Really really hoping .

Loved this series, want more.Unexpected twists in the story kept me on edge until the end.Wonderful writing.Interesting characters who I cared about.

I enjoyed the second book. It was a fun read. I enjoyed the humor woven throughout the story. If your a stickler for historical accuracy and language, this books not for you!

Truly enjoyable and quick read. I cared about Helen and Edward. My only complaint is that this really could have been put out as one book, as book 2 seems rather short. As for the end without spoilers, let me say it was satisfying. However, the way the author left it seems as if it could be continued? I hope so.

Interest and different
