Customer Reviews

This FREE book is "...unofficial and unauthorized. It is not authorized, approved, licensed, or endorsed by J.K. Rowling, her publishers, or Warner Bros. Entertainment, Inc." The author, Dinah Bucholz, states this on the cover, letting us know the book is her creation and not connected with Rowling's classic books. That said, the book itself is a short and entertaining read. Every recipe relates to a scene in one of Rowling's books, and Bucholz indicates book and chapter after each of

her descriptive passages. The author presents ten summertime treats, ranging from such Harry Potter favorites as Butterscotch Brew to Triple Power Icy Lemon Pops. The descriptions are whimsical, fun, and enjoyed by the eight-year-old who read them with me. At the end, Bucholz has an advertisement for her entire cookbook, 150 recipes for \$9.99 (today's price in muggle money for the Kindle version). While that book might seem a little pricey, you can't go wrong with "10 Summertime Treats." It's FREE, it's entertaining, and when you're done reading, you can move on to creating the recipes. Five stars.

Great sounding recipes (have only tried one or two so far). I love how she pulls some of the 'quieter' food items out of the books (it's not all Butterbeer and steak and kidney pies) The tie-in with the Harry Potter books and where the food item might appear within is a bit more than I would have expected, and then you get [muggle] history thrown in, too! All of it makes this a fun book to actually READ. Yes, I read the whole book, marking recipes as I went. I admit I am disappointed that (once again) someone thinks cauldron cakes are pancakes/flap jacks...but that's to be expected and does not diminish the value of this collection (it's just worth noting in-case, like me, you are searching for the perfect cauldron cake recipe).

Each recipe comes with a description of how it is related to the Harry Potter stories. There are also historical facts about the dishes and England which I really appreciated for their educational value for my daughter. The book itself is very pretty, with paper made to look like parchment and an appealing layout, font, coloring, etc - the edges of the paper have a torn parchment effect. We made several of the recipes for a Harry Potter themed birthday party for my husband and daughter at Halloween and they all turned out great. I don't like seafood, but my husband does so I made the Bouillabaisse seafood soup and it was a huge hit. I made a giant pot and every last drop was eaten. Everyone loved it and thought it was beyond restaurant quality. I also made the Guinness stew which I personally loved and was also a big hit. The almond-Ginger-Peach Treacle Tart was FANTASTIC. I didn't have golden syrup so I used maple syrup and it was great. I also made bangers and mash - though I just used store-bought sausages which I cooked on the grill - but I used the book's mashed potato recipe and there was not a speck of potato left in the bottom of the pot - they were the first thing to go! There is a pumpkin juice recipe, which I used for inspiration but ended up making up my own version. There is NOT a butter beer recipe, but there are several recipes for butter beer online. I tried two and both did not turn out well. Considering how well everything else I made from this book turned out, I wish it had a butter beer recipe. Otherwise it has

pretty much everything else from the movie you could think of. My only other complaint is that it is a little hard to find the recipes. They are ordered into themed chapters: "Good food with bad relatives..." etc; and these chapters are listed in the table of contents in the front of the book. There is also an index in the back of the book. But the problem is since these are dishes with odd and unfamiliar names, I often cannot remember what they are called in order to easily look them up in the index. I wish each recipe was listed in perhaps small font under each chapter in the table of contents, because that would be far more helpful as I can remember about where in the book I saw one and figure it out from there. But I like the book enough that I did not take off a star for this little quibble.

Recipes include: Butterscotch Brew, Butterscotch Brew Ice Cream Soda, Butterscotch Brew Slushies, Double Chocolate Ice Cream Cones, Paddington Burgers, Triple Power Icy Lemon Pops, Chocolate and Raspberry Ice Cream Cones with Chopped Nuts, Pumpkin Juice, Strawberry and Peanut Butter Ice Cream Cones, and Ice Cream Sundaes. Really, regular summery food with a Harry Potter-themed backstory for each (including which book and chapter in case you want to refresh your memory).

I'm here like most people, I think, wanting to know a good butterbeer recipe. I fell in love with it on my honeymoon trip to Universal Studios last year and my husband and I have craved it ever since. So, when I came across this ebook AND it was free- I knew I needed to get this. I love all the recipes and ideas in this and know I will definitely be making more than just the butterscotch treats! :) I also like the intros above the recipes that not only tell you when they had something like this, but it also helps set the mood where you feel you can be right there with them, enjoying.

My kiddos weren't as interested as I thought they were going to be, but still flip through the pages every now and then. I was looking for something a little more flashy I think. I have a lot of Harry Potter Fans in my house. We did make one of the treats it talks about in the book and it was good but nothing else.

Meh, it was mostly ice cream, Popsicles and butterbeer. I'm glad I received a free copy. The recipes look interesting, but I don't have an ice cream machine, so couldn't test them. And my smallest HP fan didn't like the Popsicles and we already had a recipe for warm butterbeer. Directions are easy to follow, recipes are quick to use at a glance.

A fun and cute way to bring a little of that Harry Potter magic to life! The recipes are easy to follow, and well written! It's also a great introduction to classic and common British foods, something that my boyfriend is fond of!
