Customer Reviews

I found this book by accident, but I'm very glad I did. The akashic records is one of the topics that I've always wanted to learn more about, but I wasn't sure where to look for it. The book is really easy to read, because its contents are exposed in a very gentle way. It gives you some kind of motivation because it makes you feel like you just got a new tool kit you can use to improve your life if you are open to use it, you'll fix yourself.

Out of all the books I have read on the Akashic Records this is truly the best. Easy to understand and do, Lisa walks you through it. I recommend this book and Lisa for beginners. I will be getting her other book's in the future. Check her out online as well you will see what I mean.

This is a must read. It will confirm your knowing and raise your level of conscious. Answers some questions you were afraid to ask. This book will fill in the gaps.

I haven't read the entire book as I just purchased it - but it is the book I have been waiting for. Lisa combines practical information about how to access the Akashic Records as well as many meditations/visualizations for the student to practice and experience obtaining information from his/her Akashic Records. The book is very easy to read and understand. The actual application of her method does take time and dedication. So far I have been very pleased with what she has presented.

Great book. I have signed up for Lisa's on-line counsel refer to it often.

I love the information... lots of "to do" stuff that, to me, is a little difficult to follow... do this at this time... but do this first... and only do this when/after... and wait until this time to do this... you know! I will have to sit down with the book now that I read it through and sort of "map out" the instructions in the order they are, apparently, meant to be undertaken... a "to do" chapter that maps it all out for you :) at the end of the book would have been very handy indeed... however, worth the effort and hopefully with results :)

I've taken classes on the Akashic Records and read about them, but after reading Lisa Barnett's book, I can finally access my own records. Her techniques are direct and fail-proof. She makes this complex subject easy to understand. Before even completing the book, I was able to access the records for practical information in dealing with questions and situations in my life. I also posted Lisa's notice that her book was in the stores on Facebook, and a friend of mine ran right out and bought her book, too. He is also super enthused about this tool, and has been accessing his record every day. Many thanks for this illuminating work, Lisa. I appreciate your leadership and willingness to share.

I absolutely love this book! It is very empowering to know we can access our own souls records!! refer to this book often and the prayers are wonderful!! continue to gain insights into my own records and its wisdom therein. Written simply for everyone to understand!! highly recommend.
