Customer Reviews

Gary Chapman is very Christian based and this book is amazing IF you have a spouse that is willing to read the book and work on your marriage. There are a lot of great points in the book IF your spouse is not willing to work on the marriage that will reassure you that certain behavior and treatment is just not acceptable nor biblical. If you are reading this review, you are likely in tough times. God bless you on your journey.

Some of the parts were okay the book is just too religious for my views I wanted self help to individually help me. Not really push me towards church, I did like that it gave us the feeling of sticking it out together.

The book looks at all angles and facets of separation. It also discusses what to consider if reconciliation fails. Great read.

Can't put it down hardly Love it

Great advice, covered all topics. It's a manual with step by step instructions on what to do and how to cope.

This is a great book. It's easy to read & is full of common-sense but often overlooked information. You'll often think to yourself, 'That's obvious - why didn't I think of that?'

It is a good faith based book. A good reference book on the bad days. These marriage books are more likely to work if both are trying.

Great book very helpful.
