Colour In Clay

Synopsis

Colour in Clay is a complete study of the particular magic that color oxides and stains in the clay body can bring to throwing, pinching, coiling, inlay, lamination, and sculpture. Ceramist Jane Waller profiles 50 artists from Europe and America, offering detailed and enlightening commentary on their working methods, firing techniques, and sources of inspiration. A collaborative effort by some of the most influential ceramists working today, the book offers a rich pooling of recipes, tips, and ideas that will encourage all potters to explore and experiment with color. Jane Waller has an advanced degree in Ceramics from the Royal College of Art; she has been making Millefiori and Raku ceramics for more than 20 years.

Customer Reviews

I AM PLEASED WITH THIS BOOK IT ARRIVED IN VERY GOOD CONDITION

very good info, photos and instruction but lacking in enthusiasm

Quickly shipped! Just what I needed. Thank you!

I bought the book either for school or as a reference. Its good. I can't believe they require a minimum amount of words. Crazy. They want an opinion and then ask for so many words. What are they nuts!
