Goddesses, Whores, Wives, And Slaves: Women In Classical Antiquity

Synopsis

"The first general treatment of women in the ancient world to reflect the critical insights of modern feminism. Though much debated, its position as the basic textbook on women's history in Greece and Rome has hardly been challenged."--Mary Beard, Times Literary Supplement. Illustrations.

Customer Reviews

"An essential text in the process of retrieving women's part in history, it is also an absorbing story, fascinating and dramatic to read."—Marilyn French
"With this book Sarah Pomeroy created a new area of modern classical studies. . . . The book has itself become a classic."—H. A. Shapiro, University of Canterbury
"Pomeroy's pioneering study on the status and activities of women in antiquity was, and has remained, a milestone in classical historiography. . . . That no one today would dream of writing a major work on ancient social history with no index entry for *Æwomēn* is due in no small part to her revolutionary, yet scrupulously scholarly, trail-blazing work."—Peter Green, University of Texas at Austin
"Extraordinary and durable. . . . Opens up a traditional discipline to a whole new range of questions and issues while providing enlightenment about the past for feminists and nonfeminists alike."—Natalie Kampen, Barnard College
"The first general treatment of women in the ancient world to reflect the critical insights of modern feminism. Though much debated, its position as the basic textbook on women's history in Greece and Rome has hardly been challenged."—Mary Beard, The Times Literary Supplement (London)

"Pomeroy's pioneering study on the status and activities of women in antiquity was, and has remained, a milestone in classical historiography."--Peter Green, University of Texas at Austin

The saucy title is certainly enough to lure readers who might not otherwise be interested in the topic to give this book a look. The content, like all of Pomeroy's other writing, is enough to keep them engaged. Pomeroy has the gift of being a scholar that can write for arm chair history professors. It is engaging and interesting. It's the book on women in the ancient world that I have been wanting to read for a long time.

good for school work

The book really does go into much detail on women of all levels of society. I was most interested in the lower classes. I'm more used to historical novels than this factual treatment but Sarah manages to keep it from drying out. I note the age of the first publication and realize she was ahead of her time back then.

This book is a perfect adjunct to my Women in Classical Studies book and treats the subject of women in ancient Greece with a different viewpoint. A good book just in general but great for ancient studies scholars. Thanks very much! Book arrived quickly and in perfect condition.

Good solid information and worth the read! It was helpful in building my knowledge of how women were treated in the ancient world.

I thought this was a very good book, good diction and voice and good info, not as stale as most historical books get. Much enjoyed it and it was very helpful in my research

A very important, and interesting book. Author is very well informed on the issues and topics.

Excellent resource.
