## Customer Reviews

James Fizzell has more than 50 years of hands-on horticultural experience, making him the source other experts turn to with their toughest turf, vegetable, landscape, and plant problems. Fizzell is well known to midwest gardeners through numerous appearances on radio and TV and from articles for neighborhood weekly newspapers. Jim has written more than twelve books for midwest gardeners for Cool Springs Press.

Bought this for two of my kids who love to garden is has a lot of helpful information . But , they dont call me up for help anymore cause most of their question are answered in the dern ol book

It gave me all the info I needed for where I live and the size of my garden which is not large.

Although I am an experienced gardener, I grew up in Florida and most of what I had learned about

gardening did not apply to what I could grow in a northern climate. Ohio was a whole new world for me. After two years of lack luster gardens and disappointing crops, I broke down and read a book. Using what I learned in this book, my garden is exploding this year.

I was looking for a basic reference to look for times for planting and such in my area and this fit the bill perfectly for me. There may be better books for more detail but this was clear and concise and I'm very happy with it.
